

Rythem Dhamija

FRONT END DEVELOPER

Mississauga, ON | rythem-dhamija.com | rythem0722@gmail.com

Summary

Front-End UI Developer specializing in React, Typescript, Tailwind CSS, and modern UI animations. Skilled in building clean, reusable interfaces with a focus on visual polish, performance, scalability and user experience. Experienced in translating Figma designs into responsive, interactive web applications, with additional experience in full-stack development using Next.js.

Technical Skills

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Styling & UI:** Tailwind CSS, Daisy UI, Shadcn UI, Embla Carousel, Swiper React, CSS Grid, Flexbox
- **Animations:** GSAP, Framer Motion and CSS animations
- **Tools:** VS Code, GitHub
- **Backend:** Node.js, Express, REST APIs, Next.js, PostgreSQL

Education

Diploma in Business Administration	2018 - 2020
University of the Fraser Valley, Abbotsford, BC	
Full Stack Web Development Bootcamp	2024
Udemy	

Projects

Portfolio (in progress) GSAP, Tailwind CSS, Framer-motion, TypeScript, Zustand

- <https://rythem-dhamija.com/>
- Built using Typescript for type-safe component architecture and improved maintainability
- Implemented a section aware navbar using GSAP scroll triggers and Zustand for state-management
- Uses the GSAP's Scroll Smoother and scrollTo for buttery smooth experience on both mobile and desktop

- Showcases a 'Journey' section that uses GSAP's scroll triggers, is fully responsive, and optimized for performance
- Also features a reviews section with custom animations. (For learning, I built the same component twice, with both framer-motion and GSAP)

Full Stack Real Estate Ecom Website

Typescript, Tailwind CSS, Framer-motion

- <https://firebase-real-estate.vercel.app/>
- Used TypeScript to define component props and API data structures, ensuring predictable and scalable code
- Features responsive design using Tailwind CSS Flexbox and Grid classes
- Features user login/registration using Firebase Auth
- Users can login with google
- Implemented section fade ins using Framer Motion
- Also features an autoplay embla carousel

Custom Live Background with GSAP

GSAP, SVG, Tailwind CSS

- Created a performance optimized scroll linked live background
- Uses SVG Paths, and relative/absolute positioning for scene
- Uses GSAP timeline and custom timings for a natural feel
- Animates from night to day as the user scrolls
- Exits with a subtle parallax

Full Stack Real Estate Ecom Website

Typescript, Tailwind CSS, Framer-motion

- <https://ecom-store-sample.vercel.app/>
- Used TypeScript and Zod validation for type safety
- Used Neon DB (serverless PostgreSQL) with Prisma adapter
- Implemented user login and cart functionality using Next Auth
- Features checkout functionality
- Used flexbox and grid classes for responsive layout
- Also contains an admin dashboard to add/remove products, view sales

Other Experience

Cell Phone Screener, Assurant Inc., Mississauga

Sep 2024 - April 2025

- Inspected smartphones for damage and defects with strict attention to detail
- Judged and rated the phones using guidelines and performed data entry into Oracle Database
- Occasionally performed data entry using Excel Spreadsheets

Front Desk Receptionist, Arrow Workforce Solutions

Aug – Nov 2023

- Greeted and assisted job seekers at the front desk, managed over 100 phone inquiries daily
- Logged applicant information into Excel spreadsheets
- Assisted with emails, scheduling meetings
- Conducted preliminary screening.

Customer Service Roles (Dairy Queen, Cineplex, McDonalds)

2018 - 2022

- Greeted customers, accepted orders at POS
- Packaged and handed out food at take-out desk
- Took initiative in training new employees
- Performed daily maintenance duties
